Phoenix's Story etheric beauty, cosmic miracles

Phoenix's story began in New York and her career in the Thoroughbred racing industry. Her name, Star of Reality, is in the Thoroughbred Registry.

After a long career she was found in a kill pen and shipped to Grand Cayman, Cayman Islands to be part of a beach ride company. Soon after arriving she began to decline and loose hope. Failing fast, Tricia stepped in to offer her a new start in life which she immediately accepted, and never looked back.

A new life, and a new name, Phoenix, was the obvious choice as she rose from her past to embrace healing and regeneration. At home, Phoenix is the alpha mare. She watches over her herd with a gentleness that she willingly extends to us humans.

Phoenix has overcome the fast pace and pressure of her racing career, being shipped to a foreign country, foaling, injuries, and neglect. Phoenix welcomed a fresh start, and learned how to heal herself, heal others, trust and enjoy life to the fullest.
